*The current low crude oil prices are affecting various businesses and industries, not only to the Oil and Gas Sectors. Therefore, the NACE EAP 2016 theme, "How the Cost of Corrosion Affects People, Assets and the Environment" is very apt to address how the management of corrosion can be optimised during this challenging time.*

*-- Nurul Asni, NACE FMS Chair*

*An Event not to be missed in 2016 August 15th – 18th. The NACE International Conference for the East Asian & Pacific Area is returning to Kuala Lumpur since its debut in 2008! A showcase of technical experts and expo from the world over, to provide the latest innovations in science, that will improve the GDP of every country and protect our people, assets and environment in every sense. Take this once in a lifetime opportunity to mingle with the world's leading experts, in the fast modern city of Kuala Lumpur, MALAYSIA*

*--- Bob Phang, NACE FMS Trustee*

*NACE members in the EAP Area should be proud of their commitment to the NACE mission, which has lead, to the Area growing the fastest with in NACE. This is discernible with the numerous events, education courses and interactions with Government & Industry leaders with in the EAP Area.*

*--- Dr. Samir Degan,*

*NACE Vice President Y2016-Y2017*

## NACE INTERNATIONAL

NACE (National Association of Corrosion Engineers) International, established more than 70 years ago by eleven corrosion engineers from the pipeline industry, has a membership of more than 36,000 members in more than 130 countries. It is recognized globally as the premier authority for corrosion control solutions, with the mission of protecting people, assets and environment from corrosion. NACE International offers technical training and certification programs, publication of industry standards / recommended practices, technical publications (reports, journals, books) and organises technical conferences.

NACE International is headquartered in Houston, Texas and has global offices in Kuala Lumpur, Shanghai, Al-Khobar and Sao Paolo.

## NACE FOUNDING MALAYSIA SECTION

NACE International Founding Malaysia Section (FMS) was established back in March 1995 as part of the East Asia & Pacific Area. The efforts of our dedicated members have grown the Section, and it now stands as the fourth largest section in EAP. The Section promotes corrosion awareness and technological development through activities such as conferences, seminars and educational courses. Understanding the needs to bridge the aging talent pool, FMS sponsors two student sections, aimed at encouraging the young and the development of corrosion engineers to excel and combat the corrosion menace.

## TECHNICAL PROGRAM

EAP Area Conference will feature plenary talk, symposia with contributory and keynote presentations as well. Feature presentation will be the IMPACT Study.

The topics comprise of the following:

- Life Cycle Cost (Modeling & Life Prediction)
- Asset Integrity Management
- Corrosion Cost, Monitoring & Preventive Strategies
- Infrastructure Corrosion in Emerging Economies
- In-situ Methods for Corrosion Evaluation
- Preventive Maintenance
- Coatings (Repair, Re-coating, Linings, CUI, Fireproofing, Qualification Testing)
- Material Selection
- Cathodic Protection
- Internal Corrosion
- Risk Based Inspections
- Case Studies

## Who

### Should Attend:

- Asset Integrity Managers
- Facility Owners & Operators
- Engineers  
(corrosion engineers, chemical process, oil & gas, marine, pipeline)
- Consultants
- Inspectors

## VENUE

Kuala Lumpur, the capital of Malaysia, home of the iconic Petronas Twin Towers, the sixth most visited city in the world, with humble beginnings through the confluence of Gombak and Klang Rivers. The establishment of KL dates back to 1857, with historical milestones, where it was captured by the Japanese during World War II, falling into the British rule thereafter, and finally gained independence in 1957.

From colonial landmarks such as the Kuala Lumpur Railway Station, the Sultan Abdul Samad Building to Dataran Merdeka (Independent Square) to bustling shopping malls, are some of the attractions. Not leaving out the vibrant nightlife, with a huge choice of local to international cuisines and tantalizing your taste bud or teasing the thirsty tourist.

Shangri-La Hotel, Kuala Lumpur, a mere 5 minutes' walk to the Petronas Twin Towers and Kuala Lumpur Tower, will host the NACE East Asia & Pacific Area Conference, 2016.

## REGISTRATIONS

	NACE Member	Non Member
Individual Delegate (Advance Registration)	USD 450	USD 550
Individual Delegate (Regular Registration)	USD 550	USD 650
Speaker Delegate	USD 350	USD 350
Student Delegate	USD 100	USD 150
<b>Group Discount</b> After 5 participants, a 10% discount is applicable to subsequent participants registered & invoiced under the same company.		

## SPONSORSHIP OPPORTUNITIES

Sponsorship provides an excellent opportunity to become key leaders in corrosion community through leverage of NACE international global organization platform and becoming preferred corporate partner through continuous promotion of your company and sustainable technical networking profile in corrosion prevention and asset integrity business.

- Platinum Main Event Sponsor – USD 20,000 (Exclusive)
- Gold Event Sponsor – USD 15,000
- Silver Event Sponsor – USD 10,000
- Bronze Event Sponsor – USD 5,000
- Welcome Cocktail Sponsorship – USD 8,500 (1 available)
- Luncheon Sponsorship – USD 2,500 (3 available)
- Tea Break Sponsorship – USD 1,200 (6 available)
- Conference Laptop Bag Sponsorship – USD 3,500 (1 available)
- Conference Pen Sponsorship – USD 1,000 (1 available)
- Electronic Ad-Space Sponsorship – USD 1,000 (Unlimited)
- Exhibition Booth (3m X 3m) – USD 4,500

*The EAPAC 2016 will provide an excellent opportunity for corrosion control professionals from our Area, to interact and share corrosion related ideas and concerns that affect all of us. NACE International provides this very beneficial forum for our members and the technical content with the expo will mean time well spent for all our attendees.*

--- Tushar Jhaveri, NACE Past President

*The NACE-sponsored IMPACT study explores how businesses worldwide are integrating corrosion control technologies and management throughout their systems. While other studies have illuminated costs, for the first time IMPACT presents a path to reducing those costs. With benchmarking data to calculate return on investment or an asset's net present value, the IMPACT study empowers every organization to become a top performer*

--- Elaine Bowman, NACE Past President
